

Audio & Web Conferencing Benefits & Services

AUDIO & WEB CONFERENCING FOR NONPROFITS

Does your nonprofit have hundreds of initiatives that require good communication? Chapter officers, subcommittee leaders, board members and volunteers spread out all across your region? Policies and guidelines to instill across the organization? Tight budgets?

If these scenarios sound familiar, we have a great solution for you...

Try using ReadyTalk to communicate.

Organize and Delegate: Hold board meetings and chapter subcommittee meetings as conference calls.

Collaborate: Share spreadsheets, review budgets, prepare Power Point™ presentations with everyone no matter their location.

Train Volunteers: Bring new volunteers up to speed quickly. Train them on new programs and initiatives without the need for travel.

Share Information: Teach the public and volunteers about your programs and initiatives. Make a presentation, record it, and place a link to your recording on your website. You now have a way to share your programs and initiatives dynamically!

Social Media Tools: Easily embed a recording into Facebook, Twitter or your blog just like YouTube. Distribute your content via ReadyTalk's social media tools at no extra charge!

Save Money: Meeting virtually means fewer hotels, plane tickets, and rental cars. Scale back your travel budget and use the money where it's vitally needed.

Ensure Compliance: Train your organization on regulatory and policy guidelines. Record training sessions for future reference.

ReadyTalk Nonprofit Pricing

Special pricing for Center members*: Members of the Center for Non-Profits are eligible for deeper discounts on web and audio conferencing pricing.

**(Non-members can still participate in Ready Talk's low non-profit rates.)*

Audio Conferencing Rates:

3.9¢ / minute

Web Conferencing Rates:

7¢ / minute

Audio & Web Rate:

10.9¢ / minute

ReadyTalk Broadcast Audio is also available as an add-on to web conferences with operator-assisted audio. There is a flat fee based on the number of participants as well as a per-minute rate for participants who dial-in using their telephone.
